

NEW! IMPROVED FORMULA!!

GRO MAX™

15-0-3

Nitrogen-Rich Bio-Fertilizer

Description:

NEW! GRO MAX™ is a concentrated bio-fertilizer blend of nitrogen and potassium in a liquid base of humic acids, enzymes and amino acids that promotes healthier leaf, stem and root growth. The added potassium aids in the regulation and uptake of nitrogen in plants, trees and turf grasses and is formulated for use year-round.

NEW! GRO MAX™ is formulated for use year around, both warm and cool season.

Benefits of Use:

- ◆ Nitrogen nutrition for the entire landscape
- ◆ Promotes deep green leaf color
- ◆ Reduces the effects of stress
- ◆ Develops overall vigorous growth
- ◆ Nutrients resist leaching
- ◆ Stimulates aerobic soil microbial activity
- ◆ Easily sprayed on or applied through automatic fertigation systems
- ◆ Will *not* stain!

Application Instructions:

NEW! GRO MAX™ is highly concentrated and should be mixed with water to ensure adequate coverage.

General Turf: Apply 8-32 ounces of **NEW! GRO MAX™** per 1000 square feet in 5-20 gallons of water -or- apply 2-10 gallons per acre in 50-100 gallons of water and irrigate thoroughly following application. Repeat every 2-4 weeks as necessary.

Root Feeding: Mix 2-3 gallons of **NEW! GRO MAX™** per 100 gallons of water. Inject within root/drip-zone of trees and shrubs according to size and known nutritional requirements. (See Biofeed Landscape Program Guide for additional information)

Availability:

2½ gallon jugs, 55 gallon drums or 275 gallon bulk containers.

Guaranteed Analysis:

Total Nitrogen.....15.0%
14.0% Urea Nitrogen
1.0% Water Soluble Organic Nitrogen
Soluble Potash (K₂O)..... 3.0%

Derived from Urea, Protein Hydrolysate and Potassium Hydroxide.

Also contains all natural humic and fulvic acids, surfactants, enzymes, amino acids, biostimulants and buffers.

Technical Support:

Consult your Biofeed Products Rep for additional tips on application and usefulness of this and other Biofeed products to improve the quality of your landscape maintenance program.

Physical Characteristics:

9.6 lbs./gal. pH 7.9; (1.51 lb N/gal)

Condition of Sale:

The information herein is believed to be accurate and reliable. Buyer and user assume all liability from use of this material. Follow directions carefully. Timing, method of application, weather, plant, crop or turf conditions and other factors are beyond the control of the seller.

Storage and Disposal:

Keep product in original container. Do not transfer into food or drink containers. Triple rinse and empty for recycling. Always dispose of container in accordance with local, state and/or federal regulations.

Caution:

Keep out of reach of children. May be harmful if swallowed.
