

Turn your soil into a living system of organisms!
Rid your soil of Black-Layer!

Multi-Care™

3-0-0 Biological Soil and Plant Management System

Description:

University Tested Biofeed Multi-Care™ is a dynamic liquid concentrate of organic nitrogen, natural organic acids, enzymes, amino acids and vitamins. This rich combination acts as a substrate for beneficial aerobic microbes to help build better soil structure, reduce compaction and eliminate Black-Layer by enzymatically releasing oxygen into the soil. Its organic acids also buffer harmful salt to help leach it out of the root zone.

In the plant, University Studies show that **Multi-Care™** increases antioxidant production; photosynthetic capacity and respiration, resulting in improved drought stress and deep, dense root growth. Use **Multi-Care™** in your fertilizer program to produce healthier turf grass, trees and plants that are more resistant to environmental pressures and disease.

Benefits of Use:

- ◆ Releases oxygen into the soil!
- ◆ Promotes aerobic biological activity
- ◆ Eliminates Black-Layer
- ◆ Improves biological nutrient conversion
- ◆ Improves soil crumb structure
- ◆ Improves water penetration and retention
- ◆ Stimulates root growth
- ◆ Improves drought tolerance and disease resistance
- ◆ Aids seed germination
- ◆ Buffers harmful salts
- ◆ Aids thatch digestion
- ◆ Easily sprayed or applied through fertigation systems

Application Instructions:

Greens and Turf; Apply 4-8 ounces per 1000 square feet in 5-20 gallons of water or 1-2 gallons per acre in 50-100 gallons water. Water thoroughly. Apply every 2-4 weeks.

Fairways; Apply 2-4 quarts per acre once every 30 days with sprayer in 50-100 gallons of water or apply through a fertilizer injection system. Water thoroughly.

Root Feeding; Dilute 0.5-1 gallon per 100 gallons of feed solution in water and inject normally. Repeat as desired.

Guaranteed Analysis:

Total Nitrogen (N).....3.0%
3.0% Water Soluble Organic Nitrogen

Derived from Protein Hydrolysate.

Also contains all natural humic, fulvic and other organic acids, natural surfactants, protein hydrolysate, enzymes, vitamins, all natural biostimulants and natural buffers.

Physical Characteristics:

8.9 lb/gal. pH 8.5 (0.42 lbs N/gal.)

Availability:

2½ gallon jugs, 55-gallon drums or 275-gallon bulk containers.

Condition of Sale:

The information herein is believed to be accurate and reliable. Buyer and user assume all liability from use of this material. Follow directions carefully. Timing, method of application, weather, plant, crop or turf conditions and other factors are beyond the control of the seller.

Storage and Disposal:

Keep products in original container. Do not transfer into food or drink containers. Triple rinse when empty for recycling. Always dispose of container in accordance with local, state, and/or federal regulations.

Caution:

Keep out of reach of children. May be harmful if swallowed.

MSDS available upon request.

SHAKE OR STIR AFTER EXTENDED STORAGE.

Use **Multi-Care™** on all types of soil year-round to improve natural fertility!
